7 NIGHT PACKAGE FROM **\$2,286** PER PERSON<sup>^</sup>

Experience one of the most incredible natural processes as the red crabs emerge from the forest and make their way to the ocean to spawn, swarming across roads, streams, rocks and beaches. The migration generally begins sometime from late October to December, depending on the onset of the first rains. Females plan to release their eggs into the ocean at the turn of the high tide, during the last quarter of the moon.
